New Canard "Lancers" leaves Feb. 15; 71 days \$400 up, guides, drives, shore trips, Jan. 4. Found the world. P. C. Clark Times Bldg., N. Y.

HELEN GRAGGS GAINS LIBERTY

Oxford, England, Oct. 30.—The suffragette hunger strike in the English jail today brought about the release of Helen Graggs, sentenced to nine months' hard labor on October 10 for attempting to set fire to the residence of Lewis Vernon Harcourt.

The health of Miss Graggs broke down.

New York, Oct. 30.—Sister from Germany, Oct. 30; first, 1904. Chicago quiet, unchanged. Extra clear, fresh gathered extras.

Go to Florida.—A. A. Wenner will leave next week for the Everglades, Florida. He is to film the Ogdens colony for the winter and may remain permanently.

## STRAW VOTE IN OGDEN HOUSES

Roosevelt Has More Than Wilson and Taft Combined, With Taft in Third Place and Evidently Has Stopped Running—The Landslide Has Started.

A poll of votes at Wright's store yesterday, among the clerks, resulted:

Roosevelt	48
Taft	20
Wilson	25
Debs	2
Total	95

A straw vote at Geo. A. Lowe yesterday afternoon gave:

Roosevelt	30
Wilson	14
Taft	2
Debs	1
Not voting	2
Total	50

The two polls combined give:

Roosevelt	78
Wilson	39
Taft	23
Debs	3

Roosevelt has 16 votes more than Wilson and Taft combined. Taft is in third place and virtually out of the race.

In New York state the highest state court held a workman's compensation act unconstitutional. Progressives propose that in such cases the people shall have a chance to decide whether they wish the constitution to be construed as the court construed it.

The old parties—controlled by the bosses—denounce this proposal as "anarchistic."

SHERMAN IS NEAR DEATH

Vice President Cannot Live—End but Question of Hours.

Utica, N. Y., Oct. 30.—"Vice President Sherman's death is a question of only a few hours," said Dr. Peck when he left the Sherman residence at noon today. The vice president was delirious when he awoke for a few minutes early today. He then lapsed into a heavy sleep. It is not believed that Mr. Sherman will survive the next 24 hours.

Dr. Peck said that Mr. Sherman's condition had improved since 2 o'clock yesterday and that most of the time since his patient had been in a comatose condition. For a few minutes early today he was awake, but he was delirious. He soon dropped off to sleep and has remained delirious to the present time. He has not been rational since Monday night.

Dr. Peck expects the end during the afternoon or tonight.

Information is not given out very freely, but it is understood that the condition of the patient has continued practically unchanged throughout the day and the condition remains unchanged.

The extremely critical condition of the patient has caused many rumors of the death of the vice president and the local newspaper offices have been flooded with inquiries.

Dr. Peck is entirely without hope for his patient, but says it is impossible to determine just when the end will come.

A message was received here this afternoon by Mrs. Sherman from President Taft, as follows:

"Mrs. Taft and I have been greatly

shocked and distressed to hear of the present illness of the vice president, and I send you this message of sympathy, with the earnest hope that the symptoms may become more favorable and that your dear husband may be restored to his friends and this country."

Dr. Peck stated at 3:15 p. m. that it was now a "matter of hours."

The physical condition of Mr. Sherman was such that his strength might hold out throughout the night or possibly until tomorrow afternoon. He did not think that death would ensue before the expiration of from eight to twelve hours.

## WILL WATCH FOR FRAUDS

Roosevelt Hires Detective Burns to Prevent Corruption at Polls.

Oyster Bay, N. Y., Oct. 30.—Colonel Roosevelt announced today that he had retained William Travers Jerome and Detective William J. Burns to look out for frauds at the polling places in New York state on election day.

Mr. Burns came to Oyster Bay today to take luncheon with Colonel Roosevelt and go over with him the plans for election day.

"I told Colonel Roosevelt," said Burns, "that I wanted the polls watched and that I wanted any kind of fraud stopped. If there should be any fraud on our side, I want the guilty persons to be prosecuted just as vigorously as any others."

"I want the people to understand that, whatever the outcome of the election, we are going to prosecute right up to the limit any persons who are guilty of frauds and put them behind the bars if possible."

"We are not going to have any reputation of the spring primary. In this case we have the law behind us."

Colonel Roosevelt said that other lawyers would work with Mr. Jerome, two or three of them, but they have not yet been definitely selected.

"Burns and his men will watch for frauds at the polls," the colonel continued, "and the lawyers will be in active consultation with them from now on. I asked that Mr. Jerome be engaged. I did not care whom he was supporting. I am not concerned about that. My only concern is that the man who does wrong shall be caught."

Colonel Roosevelt left today for New York to speak in Madison Square garden tonight. He is leaving secret his movements in New York before his arrival at the garden on the 31st.

"I feel perfectly well," said Colonel Roosevelt.

WILL NOT TAKE OFF HIS NAME

New York, Oct. 30.—No plans have been formulated at Republican national headquarters for procedure should necessary arise for withdrawing Vice President Sherman's name from the national ticket.

Prominent party men believe that it would be highly inadvisable to remove Mr. Sherman's name from the ticket unless he insisted upon it. It should be left before election day there would be the added obstacle of the impossibility of reprinting the ballots at such a late hour. It would take at least five days, perhaps a week, to call the national committee together to name his successor.

This alone would make impossible the naming of another candidate before election day. Besides many Republicans believe the substitution of another name in an eleventh hour change might have doubtful effect.

HAD NEVER TRIED IT

"What's your hurry?"

"I've got to dress a chicken today," said the young man.

"Oh, do let me go over and help you," entreated the prospective bride. "I used to love to dress dolls."

Harmon "Bluffs" Opposing Justice.

Governor Harmon of Ohio has in his memory many interesting reminiscences of trying experiences he had while attorney general. At one time he was endeavoring to cover a certain thin streak in his argument when he was tripped up by Justice Gray, who said: "How about that point?" With all the dignity he could summon, the attorney general drew himself up to his full height. "I am coming to that presently," he retorted feebly, while the justice "withered."

"While I was saying that to Justice Gray," says Governor Harmon, when relating the incident, "I was trying to discover my line of argument. Finally, while looking through my pockets for something else, I came upon an old envelope on which one word was scrawled. That word gave me the point I was trying to recall, and I went on without a hitch. I believe that that old envelope with the scribbled pencil note on the back won the case. That was one time it paid me to fumble in my pockets and spare for time, although Justice Gray didn't know it."

Joe Chapple's News-Letter.

## PREDICTED THE DEATHS

Secress Makes Her Fatal Predictions True With Poison.

Chicago, Oct. 30.—A solid globe of crystal glass, a foot in diameter, into whose depths Mrs. Louisa Lindloff gazed and then announced, according to witnesses, the forthcoming death of members of her family was introduced in evidence today in the woman's trial on charges of poisoning her son Arthur, 15 years old.

The crystal appeared during the testimony of Police Captain Bernard Bauer, who went with Coroner Hoffman to question Mrs. Lindloff soon after the question of the cause of Arthur's death was raised. The captain produced a small box of mineral poison found in the viscera of four deceased relatives of the woman.

"Mrs. Lindloff told us," said the captain, "she was a seeress; that she read the future in the big glass ball, and gave electrical treatments to men patients. The boy, she said, had been sick nearly two weeks before his death. She told us when we questioned her about the deaths of other relatives and of the amount of insurance each carried."

## MEETING OF NEBRASKA CLUB

Another enthusiastic meeting of the Ogdens-Nebraska club was held in the Weber club rooms last night and many new names were added to the club roll. J. M. Foristall, president of the club, made a short speech, welcoming the new members and outlining the plans and aims of the organization.

Most of the time was spent in informal discussions of the various subjects which are of interest to the club, and the members were made thoroughly acquainted with one another.

The Bitter End.

You have probably often heard a person say: "I will follow it to the bitter end," or something to that effect, but very few persons know that this is a nautical term and is borrowed from a ship's cable. If you have ever been on a big ship, you must have noticed two big pieces of wood sticking up out of the deck forward, alongside each other. They sometimes have a windlass between them and they are used to secure the cable that goes to the anchor. These pieces of wood are called the bitts.

When the ship comes to anchor and the cable is paid out all that part of it which is abaft or behind the bitts is called the bitt-end of the cable. In a storm or in poor holding ground for anchors the more cable that is paid out the better the anchor will hold and when the captain is at all doubtful he pays out his cable to the bitter end sooner than risk any harm to his ship.

Old-Time Market Days.

"Market day," for ages an institution in England, still exists in certain localities, and may still be studied with interest by the tourist who visits Halifax, Nova Scotia, or Charlottetown, Prince Edward Island, where large enclosures and roomy market houses are maintained for the benefit of the country people, and such citizens as have established a regular market business. Everything from live stock to a bouquet of flowers may be brought here for sale, the owner being allotted a suitable place and charged a small fee for his accommodation, and while most of the market people are far from being especially rustic in their dress or speech, the variety and sometimes the peculiarity of their offerings still suggest the important part which the English market and its legal control played in the local and business life of three centuries ago.—National Magazine.

Fairness Above All.

The essence of chivalry was displayed by William Smith O'Brien, the leader of Ireland's national party in the '40s. On facing his man O'Brien called out: "Stop, no signal, I pray!" His opponent's second advanced, saying: "This is irregular, sir. What do you wish?" "The gentleman opposite me," answered O'Brien, "has let the cap fall from his pistol."

Retarding Home Influence.

A writer in the Boston Transcript remarks upon the new factors which antagonize home relations and absorb so much time and attention that home is a less constant factor and seems to the child less important than it did a generation ago.

"The school, not only with its regular work, but with its athletics and affiliated social interests, demands an increasing amount of time. The church, with its many organizations, calls for many evening hours as well as for a large part of Sunday. In some communities the children seem to have about as few hours for free, quiet home life as the busiest of business men, and the mother needs the best methods as well as the finest of spirit in the ever lessening amount of time she has to exert those influences which are recognized as the most potent as well as the most uplifting in life. The church is making a mistake in pushing so vigorously missionary, philanthropic and social organizations for women, while relegating to a minor place that organization whose aim is to strengthen the very heart of the social organism—the home. More attention should be given to the honoring and helping of motherhood."

CO-EDS KEEP MEN FROM ROOTING

Chicago, Oct. 30.—With a long, hard scrimmage against the freshmen, the Northwestern university yesterday began work for the Purdue game. The varsity team scored frequently.

Northwestern university co-eds hereafter will attend football games without companions from the other sex. This was the ruling of the university athletic association after it discovered that 200 enthusiasts at Birmingham made more noise than 200 in Evanston. Not that the girls themselves refused to cheer, but it is said they prevent the men from paying sufficient attention to the game.

Separate sections on the bleachers will be assigned to the men and the women students who see the Purdue game next Saturday.

Beware of a meek looking man or mule. It may not last.

## FIND GRAFT IN THE NAVY

Secret Investigation Reveals Dishonesty in Commissary Dep't.

Washington, Oct. 30.—A system of graft in the commissary department of the navy, which may reach every ship in the Atlantic fleet, has been revealed by a secret investigation. Rear Admiral Osterhaus today reported to the navy department that the investigation has resulted in the confession of G. T. Davis, chief commissary steward of the battleship Louisiana.

Admiral Osterhaus' report is very brief and contains no details further than that Davis in his confession has implicated the stewards of other ships of the fleet—at least six—and several contractors. The investigation, which has been under way for several days before a formal court of inquiry, has been conducted with the utmost secrecy.

It is said that after Davis had been ascertained of illegal transactions in the handling of government supplies, Captain Welles of the battleship laid a trap in which, officials say, Davis was caught. Captain Welles arrested Davis and preferred charges against him to Admiral Osterhaus. The investigation by the court developed not only the charges against Davis, but what is said to be a system of illegal dealings by commissary stewards on many other ships.

As in all cases of the kind, officials are reluctant to discuss the situation. The navy men are jealous of the honor of their service and make no effort to conceal their chagrin at a revelation of anything irregular.

## WM. WEBBER IS BACK FROM THE EAST

William Webber has returned from the east where he attended the convention of the 100,000 men of the New York Life Insurance company, held in Atlantic City, N. J. Mr. Webber left here on September 28 and, after arriving in Chicago, accompanied the western insurance men in a special train. The insurance company entertained the men royally at the Marlborough-Blenheim hotel in Atlantic City during the three days the convention was held.

During the month he was away Mr. Webber visited the important cities and found that the business outlook is very bright. In every state through which he passed the farmers reported that the crops were record breakers.

While in New York he witnessed the large gathering of United States way vessels in New York harbor and when the vessels were lighted with the millions of incandescent lights, he said the effect was one never to be forgotten.

"I'd like to be a candidate for your hand."

"You would?"

"Yes, if I thought there was any chance, I'd shy my hat into the ring."

"Let me see the ring," said the girl.—Chicago Record-Herald.

Then They Hit Up the Syrup.

While on a western tour in connection with certain investigations of the committee on Indian affairs, Senator Carroll S. Page of Vermont happened to get in conversation with a man at Ashland, Wis. "From Vermont?" chuckled the man. "Why, I was born at Swanton, Vermont." "So was I," said the senator. "My father ran a store on Merchant's row in Swanton."

"So did mine," replied the Vermont senator. "My father dealt in hides and wool." "So did mine," echoed the senator. "My father was a member of the firm of Page, Senborn & Co." "So was mine," cried Senator Page, with a twinkle in his eye. "Shake!" And they "shook" heartily.

In this unexpected way the sons of the old Vermont partners had met after 40 years, and tradition has it that they went off quietly arm in arm for a feast of maple syrup, in memory of childhood days at Swanton in the old Green Mountain state.—Joe Chapple's News-Letter.

Retarding Home Influence.

An Arrival in Our City Which Will Interest Those Who Have

## RHEUMATISM

Sciatica and Neuritis

Three diseases which have plagued humanity with needless pains and aches for centuries, attacking people of all degrees and ages and leaving scars, are RHEUMATISM, SCIATICA and NEURITIS.

Should it become known that a physician living here could RELIEVE EVERY CASE of these stubborn diseases, the sufferers of this and surrounding cities would crowd his office.

One physician in New York City, a specialist in his profession, has been able to do this—to RELIEVE PRACTICALLY EVERY CASE PRESENTED TO HIM, with a prescription which is known as "NURITO." It is an original prescription and contains neither opium nor narcotics, and it has proven itself in more than 45,000 cases to be a positive antidote for the uric acid in the system which causes rheumatism, sciatica and neuritis.

"Nurito" is one of the NOTWORTHY TRIUMPHS of the medical profession in these days of rapid advancement. It is NOT a patent medicine and must not be subjected to the prejudice which exists against nostrums.

No doctor is necessary—on the contrary, you are recommended to eat your usual amount of food. No matter how badly you are suffering, you will begin to feel the medicine work at once. Come in and let us tell you about it—look at the proofs, backed by affidavit. The physician who can relieve every case is not here in person, BUT THE MEDICINE THAT HE PRESCRIBES IS HERE.

"Nurito," which is in powder form, sells for \$1 and \$2 a box. To try it means to be convinced—in relief of your pains and aches with enthusiasm for this advancement in medicine. Magistral Chemical Company, Plattsburg Building, New York.

Radcon Pharmacy, A. R. McIntyre, Proprietor; and all other leading druggists.
